

Application:

Oventrop compact distributor for the connection of the "Regumat 220/280" stations DN 40/50 ("Regumat" DN 25/32 with connection fittings).

Consisting of distributor and thermal insulation.

The distributor is, for instance, used for volume flow distribution from the heat generator to several heating circuits.

Advantages:

- space-saving installation
- simple installation
- problem-free water distribution even for small performance ranges

Models:

for 2 heating circuits
for 3 heating circuits
for 4 heating circuits

Item no.:

1351692
1351693
1351694

Materials:

Distributor: Steel, primed black
Thermal insulation: Polyurethane rigid foam, CFC-free in a black aluminium coarse grain jacket

Connections:

To heating circuit: G 2 collar nut, flat sealing
To boiler: Flange DN 80/PN 10
Sensor connection: Rp 1/2

Technical data:

Max. operating pressure p_s : 6 bar
Max. operating temperature t_s : 110 °C
Max. flow rate: 18.0 m³/h
Recommended application range: max. 420 kW ($\Delta T = 20$ K)

Set of mounting legs:

The height of the mounting legs for the distributor/"HydroFixx" DN40/50 is infinitely adjustable.

The set consists of two mounting legs, sound insulation boards and fixing material.

Item no.: 1351697

Materials:

Mounting leg: Steel galvanised
Sound insulation board: Sponge rubber
