

Tender specification:

Oventrop electromotive actuator for the motorisation of "Optibal TW" ball valves DN 15-DN 25, consisting of actuator 24 V (including mounting material) with spring return and adapter set DN 15 and DN 20/DN 25.

Depending on the position of the stem of the ball valve "Optibal TW", the actuator can be installed closed with current "off" or open with current "off".

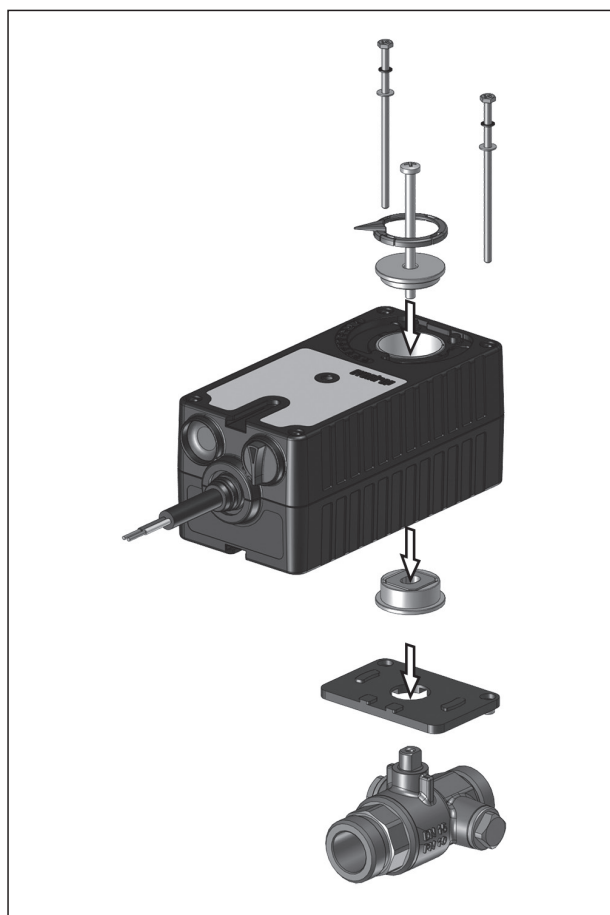

Technical data:

| | |
|--------------------|---------------------------------------------------------------------------------------|
| Application: | Potable water installations according to the German Potable Water Ordinance (TrinkwV) |
| Power supply: | 24 V AC / DC50 / 60 Hz |
| Angle of rotation: | 90 °C in 30 sec. |
| Torque: | 4 Nm |
| Capacity: | 6.0 VA / 3 W |
| Protection: | IP 55 |
| Duty cycle: | Continuous cycle |

Item no.: 4208890

Electromotive actuator

Assembly electromotive actuator and "Optibal TW"
