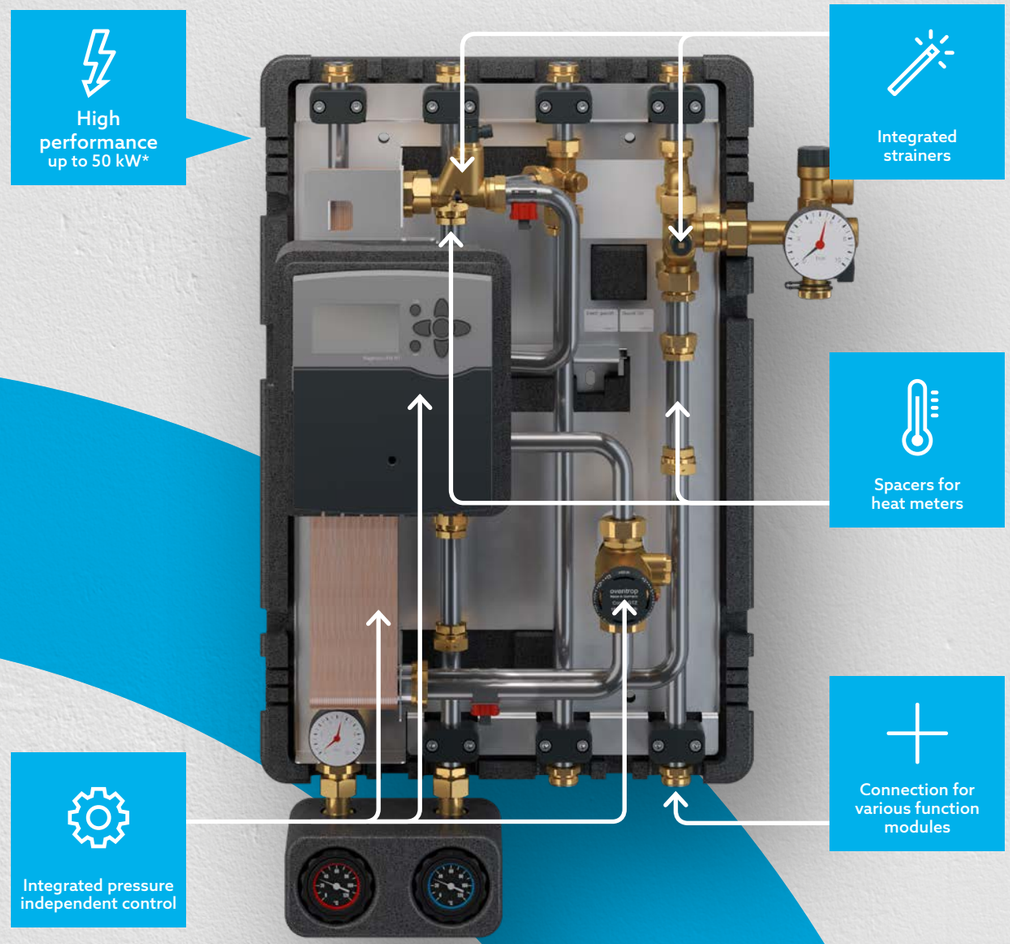
Regudis H
Transmission stations
Compact and efficient control.

oventrop

All included – **in one compact station**



YOUR ADVANTAGES

+ ***Compact*** design
+ ***Two*** performance classes
+ ***Electronic controller*** for weather-compensated control of the heating flow temperature
+ ***Return temperature limitation*** to the heat network
+ ***Function modules*** pre-assembled at the factory
+ ***Completely parametrised and tested*** on delivery

* DN 20: 20 kW with primary 80 / 55 °C, secondary 70 / 50 °C, DN 25: 50 kW with primary 80 / 55 °C, secondary 70 / 50 °C

Future-proof heating network connections

OUR TRANSMISSION STATIONS

District and also local heating networks could soon be at the heart of heat supply. ***District heating networks*** provide renewable energies to urban regions. ***Local heating networks*** are increasingly supplying districts or settlements with renewable energies or a variable mix.

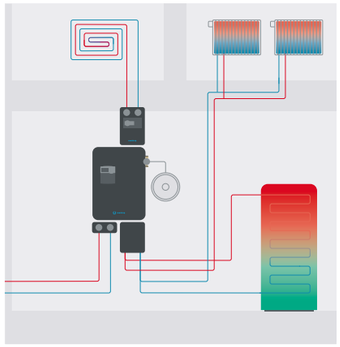
The connection to the building is done in a ***pioneering and reliable way*** with our **Regudis H** transmission stations. Via a plate heat exchanger, they transfer heat from a local or district heating network to the potable water and heating system of detached or semi-detached houses.

The compact station is available in two performance classes and various connection configurations. ***Hydronic balancing is easy:*** Integrated **Cocon Q** control valves keep the volume flow constant - independent of fluctuations in the heat network. This allows you to control everything reliably.

Transmission station
simply compact.

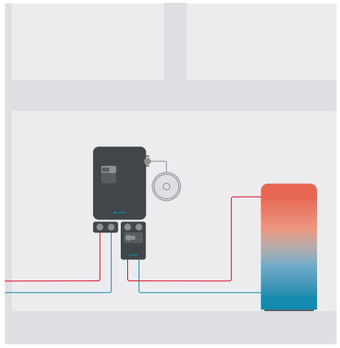
READY-TO-INSTALL STATIONS WITH MODULES FOR DETACHED AND SEMI-DETACHED HOUSES

Regudis	Size	Item no.
Regudis H-MHT	DN 20	1393027
	DN 25	1393037
Regudis H-MT	DN 20	1392027
	DN 25	1392037
Regudis H-HT	DN 20	1391027
	DN 25	1391037



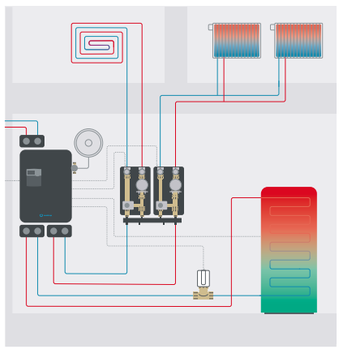
COMPACT STATION WITH MODULE FOR BUFFER STORAGE CYLINDER LOADING

Regudis	Size	Item no.
Regudis H-H	DN 20	1391021
	DN 25	1391031



STATION WITHOUT MODULES FOR OBJECT-SPECIFIC SYSTEM INSTALLATION ON SITE

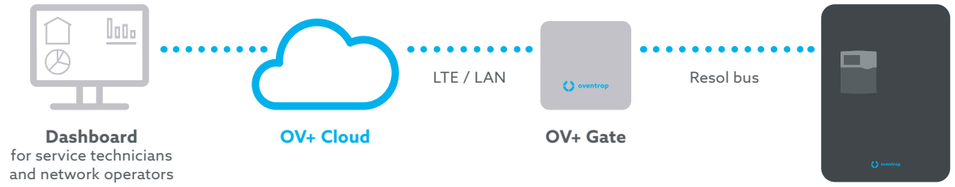
Regudis	Size	Item no.
Regudis H	DN 20	1391026
	DN 25	1391036



OV+
Networking your Regudis H transmission station.

Intelligent networking

TAKE YOUR REGUDIS H TO THE NEXT LEVEL
With our **OV+** products, you can extend and digitise our **Regudis H** stations on a modular basis. This makes it much easier for installation companies to ***remotely monitor the networked local and district heating systems.***
Local heating operators can even control entire heating networks efficiently. The **OV+ gates** enable the convenient reading and control of all control parameters via the **OV+ cloud**.



YOUR ADVANTAGES

+ ***Monitoring the supply and return temperatures*** for ***optimal efficiency of the heat network*** and maximum customer comfort
+ ***Fast adjustment of the control parameters*** in the event of deviations in efficiency or comfort, e.g. by regulating the primary return temperature
+ ***Flexible operation*** thanks to various operating modes (e.g. manual) for rapid heat supply in the event of a malfunction
+ ***Early fault detection*** through temperature and status monitoring (e.g. relays, pumps)
+ ***Transparent operating parameters*** enable efficient remote monitoring and control of the entire system (e.g. automatic error reporting)
+ Optional: ***Exact billing*** through convenient reading of the heat meter

OV+ products		Item no.
OV+ Gate for the integration of Regudis H stations in the OV+ cloud	without LTE	1159990
	with LTE	1159991
OV+ antenna optimises the LTE mobile radio connection of the OV+ gate	with LTE	1159997
OV+ Services cloud access to our remote monitoring services	without LTE	9900400
	with LTE	9900401

Modular accessories
for your Regudis H station.

+ **Regumat S-180 DN 25**
with pump ball valve

+ **Regumat M3-180 DN 25**
with pump ball valve

+ **Distributor**
for Regumat DN 25

+ **Regumaq X-45**
fresh water station

+ **Regtronic EM**
extension module

+ **Diaphragm expansion tank**

Partners in system competence:
Oventrop and Kring.

PIONEERING TECHNOLOGIES FOR DISTRICT HEATING WITH OUR PARTNER KRING

Kring is your specialist for customised solutions in the ***coupling of district heating networks*** in residential and commercial buildings. ***Oventrop*** is your competent partner for ***efficient heating and cooling as well as clean potable water.***

Together we are ***your professional partners*** for local and district heating systems. We offer you ***complete systems for transmission stations and fresh water stations*** in many applications. Learn more at: kring-waerme.de

Clean design?
Supported by us.

You want to design systems with the **Regudis H** transmission station? If you want, we can do the design for you – just contact us.

SUPPORT FOR THE DESIGN OF SYSTEMS WITH REGUDIS H

For further information and our current regional offers, please contact your local Oventrop contact person directly.

Smart Home,
Smart Building

Oventrop is the partner for efficient heating, cooling and clean potable water. The modular systems and services offer pioneering solutions with which all HVAC experts can work - easily and flexibly - from planning to installation, from industry to trade. As a family business, Oventrop accompanies all its partners over many years - competently and personally.
